## Blood Donors Needed For Clinic on Friday, March 24

Friday, March 24, the Red Cross blood donor clinic will be held in Didsbury and registered donors have been notified by card when to appear at the Evangelical church where the clinic will be held in the basement.

The clinic will open at 3:00 p.m. and it is hoped that at least 50 local people will be on hand to donate some of their blood for a worthy cause.

If you have received your card, it is very important that you keep the appointment. If for any reason you are late, be sure to come anyway.

No special diet is necessary and the maximum of 13 ounces of blood taken is not injurious to any donor. Qualified doctors and nurses will be present to assure donors that their health interests are of first consideration.

Your blood donation is urgently needed if the local hospital is to be kept supplied with blood plasma for emergency transfusions, where countless lives have been saved in the past, and others will be saved in the future.

The Didsbury hospital has been supplied with blood plasma on several occasions during the past year and some of our town and district residents owe their lives to this wonderful addition to our hospital services.

You may be the next to require an emergency blood transfusion. If the right type of blood is available when this time comes your blood for instance your life may be spared. One way to be sure that the right type of blood is available is to keep your appointment on Friday, March 24, and willing to make your contribution to our blood bank while you are enjoying good health.

## World Day of Prayer Service Well Attended

The offering of \$21.75 was given to the Interdenominational Committee in Toronto, to be used along with receipts from other services, to meet the crying need of new Christians all over the world for Christian Literature.

An inspiring address, based on the clause of the Lord's Prayer, "Thy Will be Done," was given by Mrs. Lemont.

## Dr. W. Amman Speaks At Mountain View Hall

On Tuesday, March 14, a large number of people were present at an address by Doctor Wm. C. Amman on the subject of Tuberculosis in the Mountain View Hall. Dr. Amman pointed out that the great Sir Wm. Osler had said many years ago that the conquest of this disease could not be accomplished by the doctor alone, but was a matter of concern for the whole community, and only by a united effort could this silent foe be overcome. The advantages of early X-ray were stressed, and the organization of a mobile X-ray unit was described.

A film was then shown which depicted the organizing of the community of a Tuberculosis Association. It was pointed out in the film that the financing of such associations is done entirely by the sale of Christmas Seals, the familiar seals with the double bar cross, and Dr. Amman made an appeal to give generously when the next seals are on sale. "You never know, next time it might be you."

A second film on the subject of Tuberculosis dealt with the details of arranging attendance at a mobile X-ray unit, in this instance a London factory being shown, firstly while at work and secondly while its workers presented themselves for X-ray.

The meeting closed with a film but faintly related to Tuberculosis, and concerned sanitary procedures in canteens, restaurants and hotels. The dangers of dirt and of inadequate sterilization of eating and drinking utensils were well illustrated.

## H. G. Hammell Reports On the Week's Session

Note—The following is one of a series of articles that Howard Hammell, M.L.A., has been writing for the Pioneer. Unfortunately the articles have been arriving too late each week for current publication, but this week we have found from page space for the article.

The Hon. D. B. MacMillan, on reporting to the House, stated that the anticipated road program for 1950 would exceed that of any previous year in Alberta's history.

Information was given to the House to show that on a per capita basis Alberta's grant towards education was from two to seven times as great as that of any province with the exception of British Columbia and New Brunswick.

Some of the Opposition had suggested that all revenue should be used to reduce taxation. Premier Manning replied to this by stating that there were three reasons why the Government would not follow this practice. In the first place tax rates in Alberta are generally lower than the average for other provinces of Canada. The second reason is that the financial position of Albertans is better than usual; and thirdly, the general feeling of the public is that it is more desirable to increase services than to reduce taxation.

The Hon. Mr. Casey told the House that education today employed 9,000 people whose wages

## HIGH SCHOOL WESTERN PARTY

Friday, March 17, the Didsbury High School western party was held in the Lions' Hall with a good attendance. Mr. W. Hoover of Calgary called the square dances and music was provided by Bob McGaffin, Mervin Gill, Claire Gill, H. Halliday and Anita Andrews.

After lunch the best dressed boy and girl were awarded prizes which were won by Mervin Gill and Wilona Rouleau. The spot dance prize was won by Tom Scott.

To advertise the event a window display in the J.V. Berscht & Sons store was decorated in western style with a sign mentioning the school party.

## Regular Meeting of Mountain View W. I.

The Mountain View W.I. held their March 16th meeting at the home of Mrs. Gordon Elliott with 12 members and five visitors. Being near St. Patrick's Day the gathering sang Irish songs and roll call was an Irish job.

Mrs. John Robertson, the constituency convener, was present and she brought news and reports of Institute activities.

Mrs. James Worrall gave a splendid report of the Red Deer Convention.

A book review on Park Country was given by Mrs. Otto Bittner, and plans were made for a whist drive for the Red Cross in the Mountain View hall on March 24.

Mrs. Lawrence Hunter was nominated as social welfare convener, replacing Mrs. John Bruce, who has moved to Olds.

The sum of \$5 was sent to the Salvation Army, and four pairs of children's felt slippers and one hussli were sent for overseas relief.

Mrs. H. Roberts won the tea draw. After the singing of God Save the King Mrs. Elliott served a lovely St. Patrick's lunch.

Spring officially arrived on Tuesday, and with it came spring weather with 40 above temperatures and melting snow.

exceeded twenty million dollars yearly. He stated that Provincial grants to school districts have increased from \$1,007,000 in 1946 to \$7,850,000 this year. This is an increase of 82 per cent in four years. Teachers' pensions will cost the Government more than half a million dollars in 1950.

The House was told that the membership of the Farmers' Union of Alberta at January 31, 1950, was 4,393, in reporting to the House, Hon. D.A. Ure indicated that there are over a quarter of a million cattle that have been tested for T.B. and every effort is being made to test the entire area between Calgary and Edmonton.

More than a million trees will be planted in Alberta this year and every effort is being made to increase this quantity as an essential step in controlling soil erosion.

The Resolution was passed in the House requesting the Dominion Government to allow Old Age Pensioners to earn more money than at present without automatically having their pension reduced.

Considerable progress is being made in the passing of the estimates and it is possible that the House might complete its work by the end of the month.

At the municipal election held on Saturday, March 18, in Division 4 of the Municipal District of Mountain View No. 49, H. J. Goeljen had been elected as councillor.

Following "O Canada" and the supper Mayor H. Lynch Staunton gave the address of welcome, and Ed Ford presented the prizes to the fish derby winners. Donald Blain won the prize for the largest pike caught (15 pounds 3 ounces), and an award was made to Mr. J.W. Wordie, one of the more ardent fishermen of the Association. Due to Mr. Wordie's absence at the time, Mrs. Wordie accepted the offering and showed the fine sportsmanship for which most fishermen are noted.

Mr. Ed Grange presented the prizes to the three boys turning in the most crown and maple leaf during last year's campaign. John Smallwood was first with 817 pairs, Bernie Fulkert second with 796 pairs, and Leslie Goeljen third with 369 pairs. ## A Student's Voice:

Everyone realizes the necessity of having a variety of material from which to draw when studying. The College library is located in a fairly large room with a minimum capacity of sixteen persons studying at one time. There are approximately one thousand volumes classified, and on the shelves and in use.

During this school year we were presented with about one hundred and fifty volumes from the Mount Reiner Bible Institute of Yakima, Washington. Besides these a number of up-to-date books have been purchased with funds supplied by the Alumni Association of M.V.B.C. We appreciate very greatly all of these contributions made to this essential part of the school program.

## Butterfat Prices Have Declined 2c a Pound

Butterfat prices dropped two cents per pound in Didsbury last Wednesday.

The decline in butterfat price is expected to be followed by a drop in the price of butter, but this has not yet occurred.

Reason for the drop is related to the March 8th announcement by the Hon. J.G. Gardiner about the policy for government held butter under the Prices Support Act. Mr. Gardiner said it is not expected there will be any change in the selling price of government held butter before the end of March. He said that, if the selling price was reduced, those who had bought from the government would be protected against loss to the extent of stocks on hand.

But the expected change in the government policy is not the only factor. Newspaper reports have indicated that the butter price would be reduced and this has resulted in decreased buying which has forced the price down. As most accumulated stocks of butter are held by the government and Mr. Gardiner has given some assurance that this price would not be reduced till the end of the month, Mr. Gardiner is expected to announce the new policy for butter by the end of March.

### MORE FLAX NEEDED

The Canadian barley and oil-seeds conference has passed a resolution recommending that Canadian farmers sow from 750,000 to 1,000,000 acres to flaxseed this year, about three times the acreage sown last year. It appears that the demand for flax this year will reduce stocks to between three and four million bushels, and so a larger crop is needed to assure domestic demands and obviate the necessity of importation of flaxseed or linseed.

### CANADIAN MINISTER DISCUSSES TWO-WAY TRADE IN MEXICO

Canada is now firmly in second position as chief supplier to Mexico, having advanced from fifteenth place in a period of four years, said Hon. R.H. Winters, Minister of Resources and Development, in a speech to the Massachusetts Institute of Technology Club of Mexico City.

"To our thinking, there is no better way of demonstrating our belief that world prosperity depends on high levels of trade than to expand imports from those countries which we hope will be able, as a result of their increasing earnings, to buy more from us," Mr. Winters said. "Our trading relations with Mexico are a good case in point. In 1939, our total trade, both exports and imports, was about \$3.5 million. Canada had a favourable balance of trade with Mexico of \$3 million. In 1949, however our trade was over \$40 million, and Mexico had a favourable trade balance of over \$10 million. Canadians are anxious to buy even more from Mexico in 1950, and are hopeful that Mexico in turn will buy more from us, to our mutual benefit."

## WEDDINGS

SNYDER-GARDINER

St. Alban's Church, Victoria, B.C., was the scene of a pretty wedding Saturday evening, March 11th, when Rev. F.E.M. Tomlin solemnized the marriage of Nora Agnes, daughter of Mr. and Mrs. Richard Gardiner, 3651 Doncaster Drive, to Morris William Snyder of Didsbury, son of Mr. William Snyder and the late Mrs. Snyder of Didsbury. Alta Spring flowers at the chancel rail provided the setting for the ceremony. Traditional music was played by Mrs. Walter Hamilton at the organ.

The bride, given away by her father, was gowned in white satin, fashioned with off-shoulder neckline and net yoke, lily-point sleeves and full skirt. Her veil of illusion net was caught to the head with a coronet headpiece and fell to her finger tips. The groom's gift, a triple strand of pearls, was her only ornament, and she carried a bouquet of red roses and lily-of-the-valley.

Miss Joan Gardiner was bridesmaid for her sister and wore a gown of shadow lace over pale blue satin with matching blue veil draped over bonnet-shaped feather headpiece. Her long lace mitts matched her dress and she carried pink roses and lily-of-the-valley.

The bridegroom had his brother, Mr. Alto Snyder of Carstairs, Alberta, as best man, and the ushers were Robert Emily and Mr. Charles Nowell.

The reception was held at the bride's home. The bride's table, covered with a white damask cloth and decorated with a crystal vase of daffodils and spring flowers, was centred with a three tiered wedding cake.

Leaving for a short honeymoon up-island, the bride wore a forest green gabardine suit with beige hat trimmed with brown feathers and accessories to match.

Mr. and Mrs. Snyder will make their home east of Didsbury.

### ADVICE TO FARMERS

Alberta farmers can look for future stability and prosperity mainly on the efficiency of their production and not on widespread government subsidies. This statement was made in an address delivered by Hon. David Lee, provincial minister of Agriculture, at the annual Agriculture Short Course in Edmonton last week.

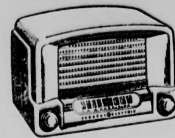

Government interference through farm price support program has increased to the highest point in the history of the 20th century, the minister said. He hoped that governments will get out of the business of running the farmers' affairs. Farmers must increase efficiency and reduce costs in order to survive declining market prices in future years.

The population of Canada on January 1, 1950, as placed by the bureau of statistics at 13,782,000. It is expected that it will pass the 14 million mark by the end of 1950.

In the fifty years since 1900 Canada's population has increased by 8 million.

Plasma, so effective in the treatment of shock as in the cases of severe burns, is stored in every hospital in Alberta by the Canadian Red Cross. It is then available for immediate use in times of emergency. Plasma is processed from the serum part of the blood, and shown above a member of the Canadian Red Cross Blood Transfusion

Service in Calgary is seen separating the serum from the blood cells. This work is carried out under most sterile conditions in a room illuminated by ultra violet light which kills bacteria in the air.

A quiet wedding was solemnized at 3 p.m. on February 28th at Westminster United Church, The Pas, when Rev. Campbell united in marriage Margaret Irene, only daughter of Mr. and Mrs. J.A. Clark, to Mr. Robert Whitfield Burns, son of Mr. and Mrs. H. S. Burns of Didsbury, Alberta.

The bride, given in marriage by her father, wore a pale blue nylon gown with matching gloves and chapel veil. She carried a nosegay of pink roses and lily of the valley and fern. Her bridesmaid, Miss Ruth Alf of Dauphin, Man., wore a greenish-blue gown with a pink net overskirt. Her gloves and chapel veil were in pale pink. She carried a nosegay of pink carnations and lily of the valley and fern.

the list with a gigantic total of  
5,831,324 pounds. And this figure  
does not include the large number

placed by new ones. Since that  
time five miles of these poles have  
been resold to the Neapolis Mutual
